About Keir Surgical Ltd.

Keir Surgical provides high-quality surgical products to hospitals, clinics, and health care facilities across Canada. Our customers have relied on Keir Surgical's expertise in surgical instrumentation, endoscopy products, headlights and light sources, sterilization containers and trays, and medical device reprocessing products since 1923.

We strive to continuously improve our level of service and our compliance with our ISO 13485 Quality Management System. At Keir Surgical, we value our customers and their patients, our community, and our people.

À propos de Keir Surgical Ltée

Keir Surgical approvisionne les hôpitaux, cliniques et établissements de soins de santé au Canada en instruments chirurgicaux de qualité première. Les clients font confiance à l'expertise de Keir Surgical au niveau de l'instrumentation, l'endoscopie, les sources lumineuses ainsi que les accessoires pour le contrôle et retraitement des dispositifs médicaux.

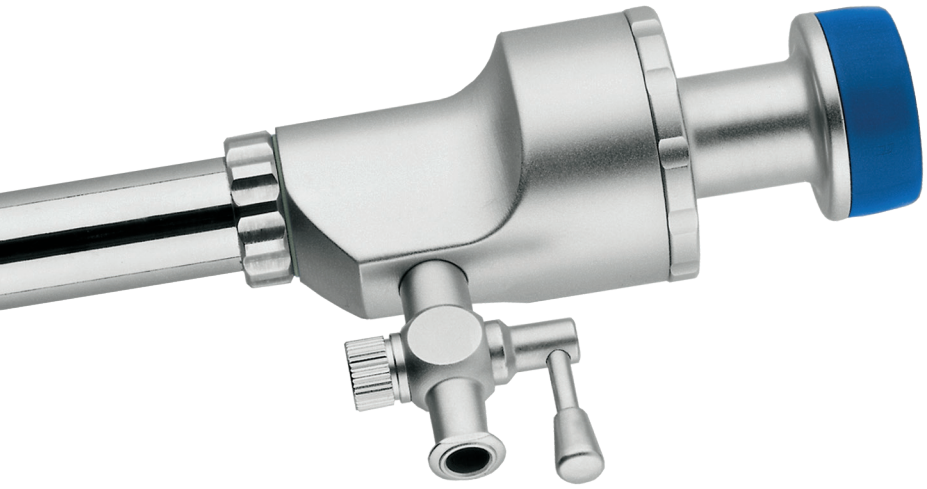

Depuis 1923, nous avons continuellement perfectionné notre approche envers les intervenants en soins de la santé. Certifié ISO 13485, Keir Surgical est fier de son travail acharné mis à la contribution du bien-être de la société, sa clientèle et des patients.

Édition 2026

TrocaPort Reusable System with Silicone Valve

Designed with a silicone valve at its core, the TrocaPort system creates an excellent seal, is lightweight, and is ergonomic in the surgeon's hand.

The patented silicone valve prevents instruments from being damaged during introduction and extraction. TrocaPort's quick-lock closure (1.5 turns) between the valve top and trocar bucket allows for quick and easy assembly. Its lubeless stopcock and disposable seals make maintenance easy. The tapered distal end encourages smooth introduction of the trocar and dilation at the puncture site. TrocaPort is available in a variety of diameters, lengths, and with smooth or threaded sheaths.

Silicone Valve

TrocaTec Reusable System with Trap Door Valve

Constructed with a push-button trap door, the TrocaTec system offers a reliably tight seal. The easy-to-operate push-button valve is activated at a right angle from the instrument axis to reduce the risk of moving the trocar position at the puncture site.

TrocaTec's trap door lid is rounded and polished to ensure low friction between the instrument and the valve, reducing wear and creating superior glide. Quick-lock closure (1.5 turns) allows for easy assembly and disassembly. A tapered distal end encourages smooth introduction of the trocar and dilation at the puncture site. TrocaTec is available in a variety of diameters, lengths, and with smooth or threaded sheaths.

Laparoscopy Instruments
Instruments de laparoscopie

2026 Edition
Édition 2026

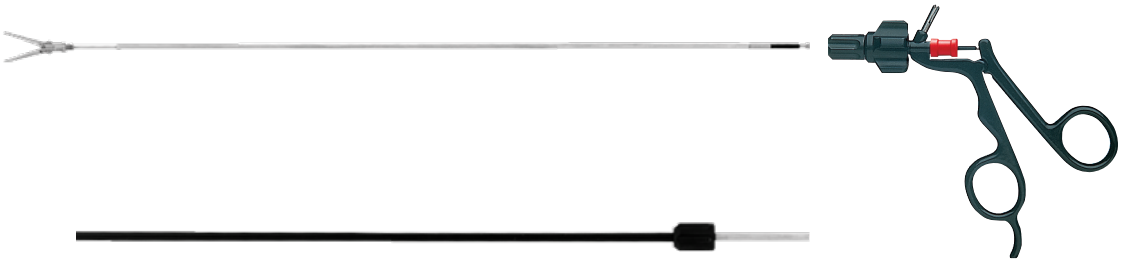

Designed without screws, springs, buttons or snaps. Rotatable, detachable, and interchangeable. Easy to clean. Inserts are available in 3 mm detachable and thermoplastic insulated tips.

Keir Surgical Laparoscopic Instruments are proudly manufactured in Germany by Hermann Medizintechnik GmbH

Each instrument is comprised of three pieces

1. Insert

2. Shaft

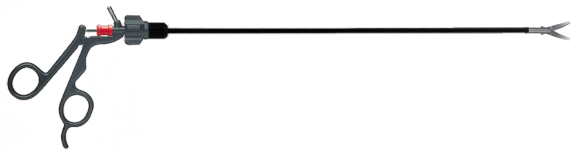

3. Handle

How to Order a Laparoscopic Insert •
Information pour commander les inserts pour intruments

You may order a laparoscopic insert only for any pattern shown. Order the insert of your choice with the following code sequence: **KS83-0** _ _ _.

Fill the last three digits with the same three digits of the complete instrument code.

Example:

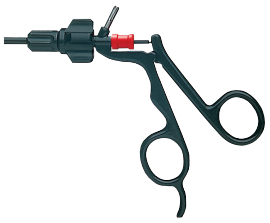

Complete Metzenbaum scissors instrument (Page 4)
Instrument code: KS82-4535
Bariatric instrument code: KS82-453545

Insert only order code

KS83-0 _ _ _ → **KS83-0535**

Plans de services pour SmartScope

Keir Surgical Endoscope Repair

KSER offers complete repair services on rigid endoscopes. For more information, please contact: customerservice@keirsurgical.com.

Réparation d'Endoscopes Keir Surgical

Réparation d'Endoscopes Keir Surgical offre des services de réparation pour les endoscopes rigides. Envoyez vos demandes de soumission pour évaluation de réparation à l'adresse courriel suivante: customerservice@keirsurgical.com.

SmartSwap

Warranty • Garantie	Turnaround • Temps d'exécution
90 Days • 90 jours	Next Day • Le lendemain

The SmartSwap* plan offers **next day shipping**** on a refurbished telescope of the same brand and model for a low fixed price. When submitting a purchase order for a SmartSwap telescope, add "S" to the end of the product code to indicate a SmartSwap request (i.e. LP100-000**S**).

Le plan SmartSwap* offre un service de livraison du lendemain** pour un télescope reconditionné de la même marque et du même modèle à un faible prix fixe. Lors de la demande d'achat pour un télescope SmartSwap, ajoutez un « S » à la suite du code de produit pour indiquer une demande SmartSwap (ex: LP100-000S).

SmartSwap PLUS

Warranty • Garantie	Turnaround • Temps d'exécution
3 Years • 3 ans	Next Day • Le lendemain

The SmartSwap PLUS* plan offers **next day shipping**** on a **new** telescope of the same brand and model for a discounted price. Your new telescope includes a **three-year warranty**.

Le plan SmartSwap PLUS* offre un service de livraison du lendemain** pour un nouveau télescope de la même marque et du même modèle à un prix réduit. Votre nouveau télescope inclus une garantie de 3 ans.

SmartRepair

Warranty • Garantie	Turnaround • Temps d'exécution
90 Days • 90 jours	5 to 10 Days • 5 à 10 jours

The SmartRepair plan offers five tiers of repair services starting from inspection to full repair that includes replacement of the rod lenses, objective lens system, light post, fibreoptic light bundle, inner tubing, and outer tubing.

Le plan SmartRepair offre 5 niveaux de service de réparation, de l'inspection à la réparation complète, incluant le remplacement de tous les bâtonnets de lentille, le système de l'objectif de la lentille, le connecteur de branchement à la fibre optique, l'ensemble pour faisceau de la fibre optique, le tube interne et le tube externe.

Terms & Conditions

*SmartSwap and SmartSwap PLUS are only available for standard length 5mm and 10mm laparoscopes, 4mm hysteroscopes and 4mm cystoscopes with a green eye-piece.

To complete a SmartSwap or a SmartSwap PLUS exchange, damaged telescopes must be returned to Keir Surgical with a Return Authorization Form within 10 business days. A Return Authorization Form will be enclosed with your replacement telescope.

Some restrictions may apply. This offer cannot be combined with other discounts or promotions. Prices are subject to change.

**Two day shipping where next day is not available.

Termes & Conditions

*Les plans SmartSwap et SmartSwap PLUS sont seulement disponibles pour les laparoscopes de longueurs standards de 5mm et 10mm, et pour les hystéroscopes et cystoscopes de 4mm avec pièce oculaire PEEK.

Pour compléter un échange avec les plans SmartSwap ou SmartSwap PLUS, les télescopes endommagés doivent être retournés à Keir Surgical avec le formulaire d'autorisation de retour qui sera inclus avec votre télescope de replacement.

Quelques restrictions peuvent s'appliquer. Ces offres ne peuvent pas être jumelées avec d'autres escomptes ou promotions. Les prix sont sujets à changement sans préavis.

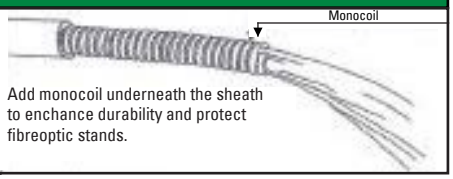

**Expédition en 2 jours lorsque la livraison le lendemain n'est pas disponible.

Fibre Optic Cables • Câbles à fibre optique

Fibre optic cables are available in standard and stainless steel reinforced premium. Insert the appropriate code under each category to create the product code for your order. **For a premium cable, add "*XX*"** to the end of your product code below.

Les câbles à fibre optique sont disponibles en matériau standard ou en acier inoxydable renforcé. Insérez le code approprié sous chacune des catégories ci-dessous pour créer le code de produit pour votre commande. **Pour un câble renforcé, ajoutez « XX » à la fin du code de produit.**
